

Signing Up

03/18/2025 3:44 pm PDT

Signing up for Heylo is easy — anyone to join. You can sign up with any web browser (no need to download a new app) or with apps on iOS or Android.

1. Web browser. You'll need to provide your name and phone number. Phone numbers are used to verify you're a real human. We will never sell your data or share your phone number with members of the group.
2. Google. If you have a Google account, you can sign in with Google by selecting the Google button. Your name will be passed to Heylo and shared with your group.
3. Apple. If you have an Apple account, you can sign in with Apple by selecting the Apple button. Your name will be passed to Heylo and shared with your group.

Everyone only needs to sign up once to join a group on Heylo. Phone numbers are not visible to other members, which keeps the group secure. Heylo will never spam anyone or sell their data.

To switch a sign-up method, [get in touch with the Heylo team](#).
