

Log in

07/29/2024 4:50 pm PDT

Once you have signed up with Heylo, you can log in from any device by [logging in](#). Be sure to use your same authentication method. Google Authentication sign-ups, for example, must select the Google option and cannot log in via email.

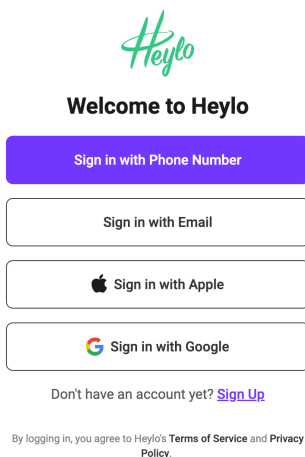

To log in

1. Visit <https://app.heylo.co/login>

The screenshot shows the Heylo login interface. At the top is the Heylo logo. Below it is the heading "Welcome to Heylo". A "Phone Number" input field is present, with a dropdown menu showing "+1" and a country code selector. Below the input field is a note: "Your phone number will not be shared." A prominent blue "Continue" button is centered below the input field. Underneath the button are two links: "Can't find your account? [Try another way.](#)" and "Don't have an account yet? [Sign Up](#)". At the bottom, there is a small disclaimer: "By logging in, you agree to Heylo's [Terms of Service](#) and [Privacy Policy](#). Heylo is protected by reCAPTCHA and the Google [Privacy Policy](#) and [Terms of Service](#) apply."

2. Enter phone number. Or, if you used Email, Google Authentication, or Apple authentication previously, select "Try another way"

The screenshot shows the Heylo login interface with the "Sign in with Phone Number" button highlighted in blue. Below it are three other authentication options: "Sign in with Email", "Sign in with Apple", and "Sign in with Google". Below these buttons is a link: "Don't have an account yet? [Sign Up](#)". At the bottom, there is a small disclaimer: "By logging in, you agree to Heylo's [Terms of Service](#) and [Privacy Policy](#)."

3. Provide your credentials

To prevent duplicative accounts, verify your phone number! Or, to switch a sign-up method, [get in touch with the Heylo team](#).
