

Event invites

06/25/2023 12:42 pm PDT

Events are the most popular way to grow a group! Every event has a dedicated invite link, personalized by the sender. The invite link can be copied, or shared via the same methodologies as [a group invite](#).

When a recipient opens the link, they see not only the event basics but the [profile](#) of who invited them as well. Personalization increases conversion and drives more attendance and engagement around the event.
